Dear Sir/Madam

Re: JMS PROJECTS PTY Ltd Educational App MYCareerTrendz adjustment for the Features of the schools App

Herein, kindly note that we have reviewed some of the features of MYCareerTrendz App for the school learners. We believe the changes were necessary for our App to be niche and business fit. The recent modification will allow us to focus on the targeted customer in a compact and seamless approach.

Secondly, the Apps design has to continuously be reviews against what is already in the market or also on the basis that certain features may not be utilized in a short-term hence the changes. There other aspect is that the Cape Town workshop has given us a broader perspective of the competitors and what their focus in the sector are targeting.

The Entrepreneurial Venture Builder (EVB) THENSA trainings in many respective has necessitated some level of modifications for the App in order to be market fit and attract the correct customer in a niche identified approach. The following features will be the core of our App:

- ❖ Learner Registration & Admission
- ❖ Subject Alignment & Career Pathing
- ❖ BLAS (Bursaries, Learnership, Apprenticeship & Scholarships) Embassies & High Commissions
- ❖ Teacher's Vacancies – Advert post for schools in Education districts
- ❖ Second Chance Program – Grade 12's Rewrite & Subjects upgrade
- ❖ Quarterly Report & Evaluation
- ❖ **Additionally AI Feature * (later to be integrated not now)**

Thank you for your time and consideration
